SUBJECT UPHILL AJAJA Kurt Werner FUNK (201-)		ABSTRACT
ACTION REQUESTED: RESEARCH		MICROFILM

See paragraph 3

Ref: CAIR 5514

HANS RECHENBERG

1. Although the bases for suspecting that Subject may have UPHILL connections are admittedly nebulous, we wish to record them for Cairo's continued consideration during their relationship with Subject. A known UPHILL contact/principal agent Hans RECHENBERG [] located in Munich was very closely associated with Subject's uncle, Walter FUNK, prior to FUNK's death and RECHENBERG and FUNK made a trip together through the Arab states shortly after FUNK was released from prison in 1957. RECHENBERG is still in close contact with Walter FUNK's widow, Luise FUNK.
2. RECHENBERG is also in close regular contact with Francis GENOUD (201-), Swiss citizen, World War II Abwehr agent and close contact to Alfred von Bolla. In early 1957 GENOUD referred a German known as "ROLAND" to RECHENBERG when ROLAND approached GENOUD to obtain weapons for Morocco. In view of Subject's activities in Switzerland as reported in reference and the above facts, we consider it quite possible that GENOUD if not RECHENBERG, came into contact with Subject.
3. We would appreciate your reporting any indications that Subject is connected with UPHILL.
